MAIN SOLUTIONS SHOWCASE

The MAIN Solutions Showcase is a fast-paced, curated session designed to give bankers practical insight into today's most relevant challenges and emerging solutions—without the sales pitch.

Taking place from 10:45–11:30 AM, the Showcase will run in three concurrent rooms, each organized by topic area so attendees can choose the discussions most relevant to their role and priorities.

Within each room, a select group of Featured Solutions Sponsors will deliver concise, high-value presentations focused on ideas, not products.

Showcase Format

Each participating sponsor will have 5 minutes to share a focused perspective using a simple, structured format:

Slide 1: The Challenge

What key issue or pressure are banks facing today?

Slide 2: What Smart Banks Are Doing

What trends, strategies, or shifts are you seeing in the market?

Slide 3: One Practical Solution

What is one actionable approach banks can consider—regardless of vendor selection?

The Showcase is designed to:

- Deliver quick, relevant insights bankers can immediately apply
- Highlight emerging trends and real-world approaches
- Create a level playing field for all participating sponsors
- Encourage follow-up conversations during networking time

Participation Guidelines

To ensure a valuable experience for attendees, all presentations must adhere to the following:

- 5 minutes total per presentation (strictly enforced)
- Maximum of 3 slides
- No live demos
- No pricing discussion
- No giveaways during the presentation

After the Showcase

Attendees are encouraged to continue the conversation with presenters during the MAIN Connections Break and throughout the day.
